

Migration

```
graph BT; A["monthly_summary.migrations.0001_initial.Migration"] --> B["Migration"]
```

A diagram illustrating the initialization of a Django migration object. A light gray rectangular box at the top contains the text "Migration". A dark blue arrow points vertically upwards from a larger, gray rectangular box below it. The gray box contains the text "monthly_summary.migrations.0001_initial.Migration", which is a file path and class name used to load a specific migration.

monthly_summary.migrations.0001
_initial.Migration
